COCO SOLUTION

COMPANY'S *general information*

COCO Technologies was created in 2019 to facilitate the access to healthcare. The purpose is to improve the patient experience and increase institution productivity by utilizing advanced medical software with a platform for accessing medical services by integrating real-time availability of clinics and physicians, enabling anyone to receive medical assistance in the shortest period of time. COCO's clients are healthcare facilities in Colombia, Dominican Republic, Chile, United States, Mexico and Costa Rica.

2020 sales: \$USD 27.000

2021 sales: \$USD 80.000

Social Impact

Increasing quality of life, Avoid chronic disease and early death.

INVESTMENT *project*

COCO Solution replaces the clinics and hospitals traditional customer support channels with Artificial Intelligence and self-management modules. We maximize each resource for financial growth and increasing the patients' experience.

Next Milestones, new modules development to increase the average ticket and launch of a new business model vertical: network availability in a B2C portal.
