Health care services

Company's INFORMATION

NeumoMed is a healthcare company specialized in the integral care of patients with respiratory diseases and sleep disorders. Founded in 2010, NeumoMed combines medical expertise and a personalized approach to deliver therapies and programs that improve patients' quality of life. The company partners with insurers and healthcare providers to deliver innovative and effective solutions.

Initial investment
USD \$ 2,5 million

Investment mechanism
Equity

Quantifiable impact
Proven cost reductions for insurance companies and Healthcare providers. Sales in Colombia in 2023: 3.6 million. + 40,000 patients treated to date.

Investment PROPOSAL

Neumomed's International Expansion project aims to bring its specialized programs and personalized therapies to key markets in Latin America and the United States. Based on a proven and successful model of care in Colombia, this project seeks to establish strategic alliances with insurers and health service providers in new territories. The investment will allow the company to adapt its infrastructure, scale up operations and adjust its platform to the specific requirements of each market, ensuring sustainable and efficient expansion.
